

## **The cloud and the coat**

How hard can it be -straight forward  
If there will be an easy road. Then bring it on to me.

Every night I'll comfort you, I'll comfort you, I'll comfort you  
Every night I hold you in my arms.  
Every night I say to you, you're the one for me the one for me.  
To our moon, it's not far.

### Vers 2

We have to be closer. I'm crawling  
But your high walls make it hard for me, though my knees are  
bleeding, I have to see.

### Ref:

Every night I'll comfort you, I'll comfort you, I'll comfort you.  
Every night I'll hold you in my arms  
Every night I'll say to you, you're the one for me the one for  
me.  
To our moon, it's not far.

### Vers 2:

The say it wont be, straight forward.  
But I dreamt there was a free ride we could take—Hu! We're  
evidently lost.

Ref:

Every night I'll comfort you I'll comfort you I'll comfort you

Every night I'll hold you in my arms

Every night I'll say to you, you're the one for me the one for me.

To our moon, it's not far.
